the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million (1990–2000) and is projected to increase by a further 1.5 million by 2020 (Office for National Statistics 2001). The number of people aged 65 and over is projected to increase from 10.5 million in 1990 to 12.5 million in 2020, with the number of people aged 75 and over increasing from 4.5 million to 6.5 million in the same period (Office for National Statistics 2001).

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (2000) has identified the need to develop a 'new paradigm' for the care of the elderly, one that is based on the principles of 'active ageing' and 'positive ageing'. The Department of Health (2000) has identified the need to develop a 'new paradigm' for the care of the elderly, one that is based on the principles of 'active ageing' and 'positive ageing'. The Department of Health (2000) has identified the need to develop a 'new paradigm' for the care of the elderly, one that is based on the principles of 'active ageing' and 'positive ageing'.
